EDUCATION

B.Tech — Computer Science

Parul Institute of Engg. & Tech.

Parul University, Vadodara

2024 – 2028 (Batch 2028)

TECHNICAL SKILLS

Languages

Java • Python • C • JavaScript

Web Dev

HTML5 • CSS3 • React • Node.js

AI / CV

YOLOv8 • OpenCV • MediaPipe

Tools

Git • GitHub • VS Code

CS Core

DSA • OOP • Problem Solving

Editing

DaVinci Resolve

LANGUAGES

Hindi

Native

Gujarati

Native

English

Professional B1+

PROFESSIONAL SUMMARY

Aspiring **AI Engineer & Software Developer** with hands-on experience in Computer Vision, AI/ML, and Java + DSA. Passionate about building intelligent systems using Python, YOLOv8, OpenCV and MediaPipe. Active contributor at CodexFusion DSA sessions and SmartED campus outreach. Seeking **AI Engineer / SDE internships** to grow and create real-world impact.

EXPERIENCE

Campus Ambassador

Feb 2026 – Present

[SmartED Innovations](#) | [Vadodara, Gujarat](#)

- Selected as Campus Ambassador; promoted technical programs and workshops to **100+ students**.
- Acted as communication bridge between students and the organisation, improving participation and engagement.
- Assisted in student onboarding, query resolution and outreach for technology-focused initiatives.

Core Member — DSA Sessions Contributor

Jan 2026 – Present

[CodexFusion Technical Community](#) | [Vadodara, Gujarat](#)

- Actively participate in **DSA-focused coding sessions** and structured problem-solving discussions.
- Contribute to peer learning and assist members in understanding core data structures and algorithms.
- Engage in coding challenges reinforcing algorithmic thinking and collaborative technical growth.

PROJECTS

Real-Time Mobile Phone Detection System

[Python](#) [YOLOv8](#) [OpenCV](#) [ONNX](#)

Built a real-time object detection pipeline using **YOLOv8** and **OpenCV** to identify mobile phone usage. Optimised inference with ONNX runtime for low-latency detection — applicable in surveillance and exam-monitoring.

Hand Gesture Recognition Application

[Python](#) [OpenCV](#) [MediaPipe](#)

Developed a gesture-controlled interface using **MediaPipe Hands** for real-time 21-landmark hand tracking. Mapped gestures to application controls, demonstrating a practical touchless HCI model.

Personal Developer Portfolio Website

[HTML5](#) [CSS3](#) [JavaScript](#) [Netlify](#)

Designed and deployed a responsive portfolio at [anant-agnihotri-dev.netlify.app](#) with smooth UI/UX, custom animations, and mobile-first layout showcasing all projects and certifications.

CERTIFICATIONS

- Mission Upskill India: AI Impact Summit 2026**
- Pre-Summit Event — Jan 2026 Artificial Intelligence Workshop [IIT BOMBAY]**
- Google Cloud Innovator**
Google Cloud
- Introduction to Generative AI and Agents**
- Google / Industry Cert. Foundational AI Skills**
Industry Certification

GOALS & ASPIRATIONS

- Build a strong **AI/ML and software engineering portfolio** with production-ready applications.
- Secure **AI Engineer / SDE internship** roles at top tech companies (Google, Amazon, IBM) by 3rd year.
- Contribute to open-source AI projects and grow as an impactful, problem-solving engineer.
